September 11, 2018

To our valued Customers, Suppliers and Associates –

I wish to inform you that as of September 28, I am retiring from EvolutionAero thus ending a career in Quality Assurance spanning 39 years. During the time I have been here I have witnessed the growth of a company on the rise and whose potential will carry it to even greater heights. It is with mixed feelings that I do this, however I feel that I am leaving EvolutionAero in capable hands, those of my successor, Patrick Hayden. With the guidance of our current Management and his aerospace experience Patrick will assume my position without any interruption in service or affect to product integrity. Please extend to Patrick the same level of professional courtesy you extended to me and I am sure the valued relationship you have with EvolutionAero will continue to prosper.

Sincerely,

Gregory Johnston

Quality Manager for Product Integrity
EvolutionAero
